

MOUSTAFA MOUSTAFA

SOFTWARE DEVELOPER

PROFESSIONAL SUMMARY

Motivated and detail-oriented software developer with hands-on experience in web development with React. Proven ability to design and implement efficient, user-friendly applications, with a focus on API integration, database management, and responsive design. Passionate about learning new technologies and contributing to innovative software solutions.

WORK EXPERIENCE

Full-Stack Developer | 2024 (Intern)

3EngInformatics

- Developed a dynamic recipe website that fetched and displayed recipes via API, featuring detailed preparation instructions.
- Integrated functionality for users to save favorite recipes and view a main feed of trending dishes.
- Implemented an email service allowing users to submit complaints directly through the platform.

Mobile App Developer | 2023 (Intern)

KATASTİMA.NET

- Built a car application using Flutter that allows users to select vehicle make, model, and year from a database.
- Developed real-time fuel cost and consumption calculations based on live gas/LPG prices and route mapping.
- Integrated location services to calculate fuel usage from the user's current location to a selected point, with all transactions recorded for future reference.
